REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art does not teach a process of forming a bond between members of MEMS including the step of depositing a first layer of mating material on a first mating surface and then depositing a first layer of bonding material of gold or tin on the first layer of mating material and also does not teach the step of depositing a second layer of mating material on a second mating surface and depositing a second layer of bonding material of indium or lead on the second layer mating material as defined in claim 1.
2. The prior art does not teach a process of forming a bond between members of MEMS including the step of depositing a layer of gold on a first mating surface and depositing a layer of indium on a second mating surface, wherein the gold layer is in excess of the layer of indium as defined in claim 16.
3. The closest prior art Lin et al (US 2001/0021570 A1) disclose a process of bonding members of a micro electro mechanical system (MEMS), wherein depositing a first layer of gold (Au) is deposited on a first mating surface such as pyrex glass cap layer but does not teach depositing a first mating material on the first mating surface and then depositing a first bonding material of gold or tin on the first layer of mating material as claimed.

Terminal Disclaimer

4. The terminal disclaimer filed on 5/25/04 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of USP 6,234,378 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
